TROUT HOUSE SALAD

The "Spring House," as it was called in its early years, connected two fresh water springs on the grounds and was later renamed the Trout House. Stocked with local Virginia trout, guests and residents were invited to catch their own fish and have the resort chefs prepare them for lunch and dinner.

The Trout House was refurbished in 2018 with a focus on growing our own produce. The reimagined Trout House represents our resort's continued evolution of southern hospitality and commitment to delivering fresh, local foods. The urban farming Trout House "sprouting project" allows the Chefs to plant heirloom Monticello seeds in smart soil, monitor growth, track analytics, and deliver a bountiful harvest of pure clean foods.
